INVERTER REPAIR

With you, step by step.

Six steps - from your order to return shipping.

01 Complete your repair order

Fill in the form, sign it and enclose it with your device.

02 Arrange collection

We coordinate collection of your device with you.

03 We inspect your device

Our technicians investigate the cause of the fault.

04 You hear back from us

We explain the inspection result and the next steps.

05 We take care of the repair

Within the scope of your order. If an additional quotation is needed, you receive it beforehand.

06 Your device comes back to you

Once the work is complete, we return your inverter.
